

About Me

I am professional trader with high-level education on Stock and Futures and Options trading.

After 20 years working for banks and institutional investors, I have created this site to help you to focus on the market.

I started trading in 1999 and my style incorporates Price and Volume to find the best risk reward ratio for entry and exits.

I believe fervently in the discipline when planning investments and show my routine will help me to follow my process.
